RE: Letter of satisfaction

In this day of tight schedules, impossible customer demands, and high labor rates, it gives me great pleasure to recommend a company like PDU Cables. With a project of almost (400) 50 amp outlet assemblies, PDU Cable exceeded our expectations. I had contacted Rod Mogard from PDU Cabling about 6 months earlier for a quote and shop drawings for approval, and both came within a day. I was very pleased with the price, knowing the labor savings would be fantastic. With material cost going thru the roof, Rod honored the pricing and delivered their product in less than two weeks of the release date. We received the assemblies in well-marked barrels. There was no need to dig thru all kinds of product to find the right material. The installation went so well it kept us well ahead of the schedule, and saved us an incredible amount of labor. I highly recommend PDU Cabling and Rod Mogard for your computer outlet needs. Thanks again to Rod and his team at PDU Cable.

Very truly yours,
Tim Jahn
Vice President
